A Letter from the Fifth Generation of the Perlick Family

For over a century, Perlick has been a family story—one of craftsmanship, care, and the belief that the spaces where we gather can bring us closer. From my great-great-grandfather, who founded Perlick in 1917, to today, each generation has carried forward a simple promise: to create equipment that is built to last, serve others better, and lead the industry forward.

Now, as the fifth generation to lead this company, I'm honored to introduce the G5 Collection – The most advanced refrigeration we've ever created. More than just a new product, it symbolizes the continuation of our legacy and vision: helping the world serve better.

Every detail of the G5 Collection is crafted to inspire—a reflection of five generations of Perlick innovation and care. Thoughtful high-performance features, quiet precision, and refined seamless design aesthetic come together to create spaces where gatherings feel effortless, every pour is flawless, and every moment unforgettable. Built with the same quality trusted by top bars and restaurants, the G5 Collection brings that unmatched performance and beauty home.

As Generation 5, I feel a deep responsibility to honor those who came before me while creating products that homeowners and professionals can trust for generations to come. The G5 Collection is our promise realized: built to inspire, made to last.

With gratitude,

Theodore "TJ" Perlick Molinari
CEO, Fifth Generation Family Member

G5 COLLECTION

THE NEW STANDARD IN PREMIUM REFRIGERATION

With over a century of premier commercial expertise, we're elevating home refrigeration to a new expression of unmatched modern luxury.

PROFESSIONAL PERFORMANCE

PERLICK'S MARINE AND COASTAL GRADE
UNDERCOUNTER REFRIGERATION WITH PERLICK ARMOR™

Customers asked. We listened. Perlick created an upgraded version of our best-in-class undercounter refrigeration line designed to tackle the elements. Whether you own a home in coastal conditions, a boat, or a saltwater pool, the harsh effects of high-salt environments can wreak havoc and prematurely weather outdoor appliances. Perlick's **Marine and Coastal Grade Undercounter Refrigeration** featuring **Perlick Armor™** is built to endure the harshest environments while maintaining the consistent functionality and showroom quality finish you've come to expect from Perlick.

- Combines a mix of 316 and 304 stainless steel for food safety and easy cleaning rather than plastics, which can be found in some marine grade products
- A protective coating is applied to the refrigeration system for increased durability
- Units come equipped with upgraded 18-8 stainless steel and zinc plated fasteners to ensure rust won't form in attachment zones
- Our Perlick Armor™ upgrade package is available on all our HP and HH Series residential models

PERLICK 24" SIGNATURE SERIES MARINE GRADE

Perlick's 24″ Signature Series Marine and Coastal Undercounter Refrigeration offers a wide selection of storage options for food and beverages in your outdoor kitchen or entertaining space and features Perlick Armor™, an exclusive materials upgrade to protect against corrosion in the harshest environments. It is designed for life in the most extreme conditions, so you can enjoy the ultimate in refrigeration wherever you find paradise.

- Superior construction provides ideal combination of energy-efficient operation and powerful refrigeration performance ideal for food and beverages
- 1000 BTU/hr capacity delivers industry's most energy-efficient cool down
- Mix of all 316 and 304 stainless steel for optimal corrosion resistance food and beverage storage safety
- Upgraded 18-8 stainless steel and zinc plated fasteners ensure rust won't form in attachment zones
- E-coated condensers add durability to the refrigeration system in the most extreme conditions
- Perlick Anti-Condensation System™ eliminates condensation from forming on the cabinet for installations in high-humidity environments
- Full-extension shelving provides faster and safer product access with no reaching into the back of the cabinet
- Audible door alarm warns user if door is held open
- Select between **crisp white** and **cool blue** LED lighting
- Available with or without door locks (see page 4 for model number key)

HOW IT WORKS

- **Dispensing heads are attached directly to or just above the refrigerator**
- **The number of beverages corresponds to the size of your refrigeration unit**
- **A 24" refrigerator holds two 1/6-barrel kegs, while a 15" unit holds one**

DRAFT ARM DISPENSING TOWER*
with 630SS Faucets

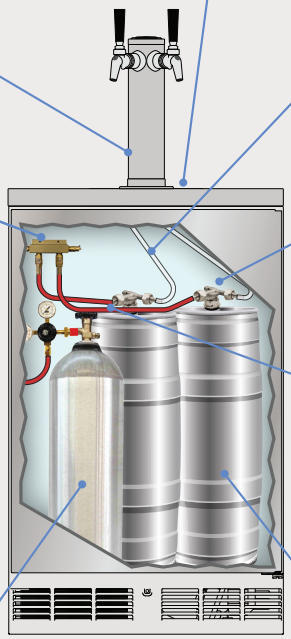

Top-mounted drip pan catches overflow or spillage and is easily removed and emptied

POLY BEVERAGE TUBING
Supplies beer from keg to tower

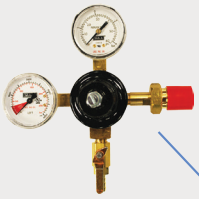

AIR DISTRIBUTOR WITH SAFETY RELIEF VALVES
- Turns CO_2 off or on
- Secondary regulators available for serving beers requiring different CO_2 levels

LOW PROFILE COUPLER
Attaches the valve to a CO_2 gas line, allowing compressed air to enter the keg and push out the beer

CO_2 REGULATOR
Regulates and maintains CO_2 level in beer

PRESSURE LINE
Transfers gas/air

CO_2 CYLINDER
Stores bulk CO_2/gas

KEGS
Used to store, transport, and serve bulk beer

BEER BASICS – TROUBLESHOOTING INFO

When you're expecting a full-bodied brew, a foamy or flat beer just won't do. If you experience excessive foam or no foam at all, chances are there is a quick and easy fix that will get you back to pouring the perfect beer in no time. Below are some of the most common beer dispenser problems and their solutions.

PROBLEM: No beer is coming out of the tap

- **Check the gauge** to see if there is any pressure showing. It should read between 10–12 lbs. If not, your CO_2 tank may be empty.
- **Is the shut-off valve in the vertical (on) position?**
  Note: Diagram shows the valve in the off position (horizontal).

PROBLEM: Flat beer

- **Check the gauge.** Is the pressure between 10–12 lbs? If not, turn the pressure up to its appropriate level. Low pressure can cause beer to flatten and pour slowly.
- **Dirty glassware will cause the head on a beer to quickly disappear.** Make sure your glassware is free of impurities before pouring.

PROBLEM: Foamy beer

- **Check the gauge.** Is the pressure between 10–12 lbs? If not, turn the pressure down to its appropriate level. Pressure that is too high can cause beer to over carbonate in the keg and pour foamy.
- **Is the unit plugged in and cold?** Is the keg cold or, if purchased at room temperature, has it been in the dispenser for at least 24 hours? Attempting to tap a warm keg in a refrigerated unit will cause excessive foaming. Keep the temperature in the unit 36°–42°F, and make sure the keg is properly chilled before tapping.
- **Have you cleaned the equipment lately?** Regular cleaning of the system – from faucet to keg coupler – is important to keep beer stone, bacteria, and mold from building up. The factors listed above can quickly ruin a perfect brew!

WITH FORWARD SEALING FAUCETS, YOU'LL NEVER LOOK BACK

- 304 stainless steel construction won't pit or tarnish
- The flavor of the beverage will not be tainted
- Patented forward sealing design eliminates the need for a valve shaft exposed to beer and air
- Spout angle is more vertical, allowing more thorough draining after each pour
- No horizontal area for beer to collect
- NSF–approved

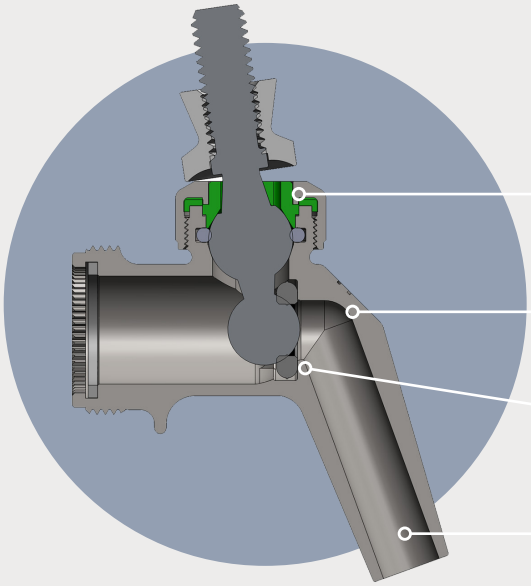

Perlick's patented, forward sealing design eliminates the need for a valve shaft exposed to beer and air.

THE **MOST SANITARY** BEVERAGE FAUCET EVER!

1. **Available for domestic or imported kegs**
   Supports the o-ring to maintain a positive seal and provide smooth tracking of the handle
2. **304 sanitary stainless steel for all parts that contact product**
   Protects flavor of beer or wine
3. **Floating front seal**
   Features a contoured profile to provide enhanced surface contact for a positive seal
4. **Spout angle is more vertical**
   - Provides for better pour and draining
   - Drop off begins just beyond the o-ring; no flat area for beer to collect

LOW PROFILE COUPLER

- Available for domestic or imported kegs
- Space-saving design and flexibility
- Beverage contact areas are 304 stainless steel, making the couplers suitable for any beverage
- Easy to operate; lowest height
- Perlick's low profile couplers will fit the majority of domestic and imported beers

**There are some exceptions on imported brands, so please ensure you check with your supplier on the coupler style before purchasing.*
