Turbo

DISTRIBUTED BY SIGNATURE MARKETING GROUP

FIFTY YEARS OF FIRE

BUILT IN STAINLESS, LIT IN BLUE AND RED

Turbo grills come from Grand Hall, a grill maker that dates to 1976, and made their name in Southern California. For Turbo's 50th year in 2026 the gas line was redesigned, keeping the heavy 304 stainless build and adding knobs that glow blue on standby and red when lit.

The collection covers gas grills from 26 to 40 inches, a teppanyaki griddle, a Santa Maria wood grill and a charcoal grill, side and power burners, outdoor refrigeration and the doors and drawers to finish the island. Signature stocks Turbo in Pine Brook, New Jersey, and supports dealers from the first drawing to service.
